

Compact Chlorometer

- Chlorometer kit, soft case (PTS045D)
- Chlorometer kit, hard case (PTH045D)

The Compact Chlorometer is ideal for the field professional validating the safety of drinking water or wastewater disinfection:

- True chlorine calibration – results are calibrated against real chlorine samples for the most accurate result
- DPD method application – both tablet and liquid reagents are available to measure free chlorine, monochloramine, dichloramine and/or total chlorine up to 5 mg/l chlorine
- Two-button operation – blank and read simply with a single button push
