

PTV 1000 - ISO

Next Generation of On-line
Turbidity Measurement

Turbidity is the key measurement parameter for determining drinking water quality.

To develop this instrument, Lovibond® Tintometer® assembled a team of globally recognized turbidity experts. We tasked them with creating a new process instrument that addresses all of the issues customers struggle with while using their current turbidity systems. These advancements, along with the addition of state-of-the-art communications and user interface make the PTV 1000 and PTV 2000 the next generation of process turbidimeters.

Products:

Title	Part Number
PTV 1000 with flow indicator	6124683
PTV 1000 with flow indicator and Bluetooth	6124684
PTV 1000 with flow indicator and Modbus	6124693
PTV 1000 with flow indicator, Modbus and Bluetooth	6124694
PTV 1000 basic unit	6125683
PTV 1000 with Bluetooth	6125684
PTV 1000 with Modbus	6125693
