

SI794 Transmitters

The SI794 is a rugged 4-wire transmitter for online measurement of analog pH, ORP, Conductivity, or Dissolved Oxygen. With a universal power supply, the SI794 provides flexibility in installation.

The SI794 transmitter performs self-diagnostics and sensor monitoring such as asymmetry potential, slope, response time, cable integrity, glass, and reference impedance to provide confidence in the accuracy of your measurement.

Part Number	Power requirements (Voltage)	Parameter	GBP Price
LXV505.99.00002	24 V DC / 90-240 V AC	pH/ORP	Contact Us
LXV506.99.00002	24 V DC / 90-240 V AC	Contacting Conductivity	Contact Us
LXV507.99.00002	24 V DC / 90-240 V AC	Inductive Conductivity	Contact Us
LXV508.99.00002	24 V DC / 90-240 V AC	Dissolved Oxygen, ppm	Contact Us
LXV509.99.00002	24 V DC / 90-240 V AC	Dissolved Oxygen, ppb	Contact Us
